

Southwire[®]
WE DELIVER POWER... RESPONSIBLY

A Vision of Generational SUSTAINABILITY

GROWING GREEN

Reducing environmental impact across our operations and product lifecycle.

LIVING WELL

Prioritizing safe, healthy, and inclusive workplaces.

GIVING BACK

Strengthening communities through responsible stewardship.

DOING RIGHT

Acting with integrity and accountability.

BUILDING WORTH

Creating long-term value for customers, suppliers, and other stakeholders.

Southwire began with a vision to help bring electric light to rural Georgia. Decades later, we are sparking new possibilities for people, businesses and communities all over the world. As we continue to grow and evolve, our 5 core tenets position us for generational sustainability by bringing social and environmental responsibility to the forefront of what we do.

DRIVING PROGRESS WITH SCIENCE-BASED EMISSIONS REDUCTION TARGETS

Today we are committed to reducing carbon emissions across our operations and value chain in alignment with the Science Based Targets initiative (SBTi), advancing low-carbon manufacturing and transparent climate leadership. By 2032, we aim to achieve a 55% reduction in Scope 1 and 2 emissions and a 30% reduction in Scope 3 emissions.

SCIENCE
BASED
TARGETS

DRIVING AMBITIOUS CORPORATE CLIMATE ACTION

INDUSTRY-LEADING TRANSPARENCY WITH ENVIRONMENTAL PRODUCT DECLARATIONS (EPDS)

Over 100 Southwire products have independently verified EPDs, representing over 55 key product categories.

EPDs provide:

- Verified environmental impact data
- LEED, BREEAM, and green-building pathway support
- Lifecycle transparency to meet customer and regulatory expectations

RESPONSIBLE SOURCING: THE COPPER MARK

Seven Southwire manufacturing facilities have been awarded The Copper Mark. Achieving The Copper Mark demonstrates the highest standard of responsible production in the copper industry, a commitment to continuous improvement, and contribution toward the UN Sustainable Development Goals.

Denton, TX | Douglas, GA | Lafayette, IN | Starkville, MS**

REDUCING EMBODIED CARBON

Southwire invests in renewable energy across our manufacturing operations to significantly lower the embodied carbon of our wire and cable products, empowering customers to meet aggressive sustainability goals.

- Renewable energy investments directly reduce customers' Scope 3 emissions.
- Lower embodied carbon in our products translates into measurable reductions in the carbon footprint of building projects.

ADVANCING SUSTAINABLE PACKAGING SOLUTIONS

Southwire's reel return program partners with multiple wood reel manufacturers to create a sustainable reuse loop. Currently, Southwire and our customers recycle about 10% of reels each year, and our goal is to increase reel returns to 20% by 2030. To get involved in this initiative, please contact your Southwire DC Shipping Supervisors or reach out to Eco-Reel or Madem Moorecraft directly. For plastic reels ranging from 11.75" to 32", please contact our partners at AXJO America at 828-322-6046 for assistance.
